INSTRUCTOR OVERRIDE INSTRUCTIONS

By merely signing in the appropriate column of the ADD section, an instructor gives approval for Kekaulike Center to input all applicable overrides to enable the student to register for or audit the class. However, the instructor may also limit the type of overrides to be applied by signing AND circling the override code in the "Override Codes" column. Kekaulike Center will then only input the stated codes, and the student will not be able to register if other restrictions apply.

OVERRIDE CODES

CP – allows registration beyond maximum capacity of class

CO – allows registration for student who is not concurrently enrolled in co-requisite class

MJ – allows a non-major student to enroll in a major-restricted class

PR – allows registration for student who did not meet the prerequisite of the class

SA – allows registration for student who has received registration approval from the appropriate party (academic advisor, academic dean, department, Instructor, program director) as required by class set-up in Banner

TC – allows registration in class although the scheduled time conflicts with that of another class
